

SHERIFF JOE ARPAIO AND INFORMANT BRANDON DARBY NOT WELCOME IN FLORIDA!

Today at the Orlando Airport Marriott, groups from around the state are denouncing the Eastern Orlando Tea Party’s invitation of two agents of the Big Government they claim to oppose. The infamous anti-immigrant Sheriff Joe Arpaio and FBI snitch Brandon Darby are both speakers at their election year kickoff event, ironically titled: “*Choosing Liberty 2012.*”

Sheriff Arpaio’s is notorious for draconian and racist tactics against detained immigrants, which include chain gangs, feeding inmates surplus & spoiled food, and a tent city outside the jail that Arpaio has called “a concentration camp,” where at least one inmate has died from heat in Maricopa County.

Arpaio was instrumental in the passage of Arizona’s SB1070 in 2010. The law mandates that police investigate immigration status based on “reasonable suspicion,” a provision which many have deemed the legalization of racial profiling.

Sheriff Joe Arpaio is a clear example of how local law enforcement can abuse immigration powers by increasing raids, racially profiling anyone that looks immigrant, and creating fear in the community instead of protecting it from real crime.

The invitation of Brandon Darby, an activist-turned-FBI informant, as a presenter at the Tea Party event has also sparked reactions from the environmental and civil liberties movements.

Government informants like Brandon Darby have put young activists in prison for thought-crimes and entrapment.

Why is Tea Party exalting Arpaio and Darby, two agents of Big Government whose main goal has been imprisoning innocent people?

If they are against freedom of movement and in favor of government repression....

This Tea Party sounds more like the British empire than the American Revolution.
